Our mission

Our mission is to promote, support and sustain effective service-learning partnerships between Madonna students, faculty and the community at-large. We aim to create the highest quality service-learning experiences by building partnerships that are well-matched to student skills, and meet defined academic and social development objectives. We develop community leaders at Madonna University,

The Henry family from New Orleans had their home destroyed by Hurricane Katrina. Our Introduction to Community Leadership (SOC 1300) students made their successful relocation to Detroit the focus of their service-learning project.

and recognize the accomplishments of those leaders within our midst. In keeping with our University's Franciscan mission, we empower partner organizations to better alleviate the suffering of the neediest and most vulnerable among us.

Plan Service-Learning for your Next Class

Students consistently report that service-learning leads to academic success, greater self-efficacy and more social

Thomas Coyne, MCC AmeriCorps*VISTA

integration with other students and faculty. However, designing a successful off-site, experiential

learning opportunity can challenge even veteran instructors. Where do your students go? What are the issues regarding liability? We are here to assist you with resources and planning. Visit our website: www.madonna.edu/Service_Learning, and Contact Thomas Coyne, MCC AmeriCorps*VISTA at ext. 5865.

Assess the Experience

How did service-learning add value to your course? What did your community partner gain from your students' contributions? The Office of Service-Learning provides online survey tools on our website for students, faculty and community partners so that you can see the kind of academic and social im-

pact you achieved with your course. We can tailor questions and compile results for you. For more information, call Stephen Rahrig, ext. 5370.

Stephen Rahrig, Service-Learning Assistant

Be a Service-Learning Faculty Fellow

Every February, the Office kicks off its Service Learning-Faculty Fellowship Program with a six-week seminar for faculty wishing to incorporate service-learning into one or more of their courses. Stipends are available for Fellows. Applications are available on our website. For more information, call Kevin West at ext. 5704.
